

Ballast Tank

Lining Systems

Carboline offers a variety of tank linings systems.

We will provide you with a solution that is tailored to your needs. All of the products in our line offer quick dry times, high build, high solids, and are surface tolerant.

Carbomastic® 18 BT *

Carbomastic 18 BT is a fast-curing, heavy-duty, high-build anti-corrosive coating with a broad and versatile list of uses in marine and other corrosive environments. It is an excellent choice for the protection of ship hull exteriors, underwater and ballast tanks.

Carboguard® 635¹ *

Carboguard 635 is a low temperature cure, self-priming, phenalkamine, epoxy coating that has excellent wetting properties, quick recoat times, and an extremely long recoat window of 180 days.

Phenoline® Tank Shield ¹

Phenoline Tank Shield is a solventless, epoxy lining for potable water and water storage but robust enough to handle industries most corrosive commodities. It may be applied by standard airless spray equipment, as a single coat lining for potable water tanks.

* IMO Ballast tank linings certified by ABS

¹ Approved for potable water use

Ballast tanks are known for their many sharp edges, protrusions, welds, holes, and hard to reach (coat) areas.

Providing a corrosion resistant lining that provides the necessary properties to handle all these troublesome areas is a challenge for a coating system. Carboline offers a variety of linings to meet these needs with fast cure, easy to use, edge retentive coatings that will work in the summer months or even in the colder winter months.

Product Line Features

- > IMO Certification
- > ABS Type Approval
- > Fast Dry
- > VOC Compliant
- > High Build
- > Surface Tolerant
- > Low Temperature Cure
- > High Solids

PERFORMANCE FEATURE	ADVANTAGE	BENEFIT
*IMO Certification	Standardized (minimum) level of performance	Assured level of protection
*ABS Type Approval	Recognized approval body for product and manufacturing quality	Consistency in product from batch to batch
Potable water approved	Allows use of single product in construction	Fewer products to stock on a jobsite
Low temperature cure	Lengthens the painting season	Maintain production schedule
Fast dry times	Quicker recoat schedule	Apply coating in less time
Low VOC Content	Compliant to VOC regulations	Safer on the environment and workers
Edge Retentive	Minimize brush striping; provides adequate film thickness on sharp edges	Easier, faster application, with improved performance
Surface Tolerant	Reduces/eliminates extensive surface preparation	Reduces labor; completes job quicker

* Carboguard 635 and Carbomastic 18 BT are IMO Ballast tank linings certified by ABS

AT CARBOLINE WE DON'T JUST SELL YOU WHAT IS ON THE SHELF, WE PROVIDE YOU THE SOLUTION THAT YOU NEED.
